Project Scope	Project, “travel together”. To stimulate public spending through domestic tourism. Helps to increase liquidity for hotel operators and related businesses. Support the creation of jobs and restore the national economy.
Duration	26 Jun 2020 - 24 Jul 2020
Database	My Sql
Role	Senior Tester
Responsibilities	Created test cases and test scenario Created test cases and test scripts Created test matrix Prepare test data Executed test cases (Manual Test 3 Devices: Notebook, Android and iOS.) Created Automate Scripts

Quality Assurance Officer — iCONEXT CO., LTD.

Jun 2019 — May 2020

Created test cases and test scenario. Created Summary Report by Pivot Table. Created test scripts on site at Asian Honda Motor Co., Ltd.

Project “A&O Parts Seiha System Phase#2”

Project Scope	Web Application for Region and Local System is developed for support following main functions as maintain Manual and auto synchronize file management, upload files management.
Duration	Mar 2020 – May 2020
Database	SQL Server Database 2019
Role	Quality Assurance Officer
Responsibilities	Created test cases and test scenario Created Summary Report by Pivot Table Created test cases and test scripts Created test matrix Prepare test data Executed test cases Database testing Supported and investigated customer issues Supported Document Project manager (PM)

Project “A&O Parts Seiha System Additional”

Project Scope	Web Application for Region and Local System is developed for support following main functions as maintain Master Data, user management, Manual and auto synchronize file management, upload files management.
Duration	Dec 2019 – Feb 2020
Database	SQL Server Database 2019
Role	Quality Assurance Officer
Responsibilities	Created test cases and test scenario (J3, J4, J5) Created Summary Report by Pivot Table Created test cases and test scripts Created test matrix Prepare test data Executed test cases Run Batch Files Database testing

Supported and investigated customer issues
Supported Document Project manager (PM)

Project "Budget Planning System"

Project Scope Web Application for Create Budget Planning for company (ASH) by Online System.
Duration Jun 2019 – Dec 2019
Database SQL Server Database 2018
Role Quality Assurance Officer
Responsibilities Created Template test cases and test scenario (J3, J4)
Created Summary Report by Pivot Table
Created test cases and test scripts
Prepare test data
Executed test cases
Run Batch Files
Web Service testing
Database testing
Supported and investigated customer issues

Software Engineer II — Aware Technology Solutions Corporation Ltd.

Jan 2013 — Apr 2019

Testing, Design User Interface and develop on in house project at Honda, Betagro, ATS
Testing, Design User Interface and develop on site Project at AIS, True Vision Group,
DTAC, Thai Administration Service Co., Ltd. (TAS), DKSH (Thailand) Limited.

Project "AIS - SFF"

Project Scope Support SFF Web Application, etc.
Run Automate Test
Duration Jun 2018 – Apr 2019
Database Oracle, PL/SLQ Developer
Role Tester
Responsibilities Created test cases, test scripts and test data
Executed test cases
Run Batch Files
Testing Web Service
Automate Testing
Supported and investigated customer issues

Project "AIS - SAND"

Project Scope Support team (AIS-SAND) for test projects following as:
Customer Satisfaction Survey, Free Song of Calling Melody By N - Music, etc.
Duration Nov 2017 – May 2018
Database Oracle, PL/SLQ Developer
Role Tester
Responsibilities Created test cases, test scripts and test data
Executed test cases

Project "Interactive voice responds (IVR) for AIS."

Project Scope IVR is developed for support AIS customer via mobile or telephone (landline), AIS customer can do transactions as register calling melody, change AIS promotion, change SIM management, by themselves. etc.
Duration Dec 2016 - Oct 2017

Database Oracle 11.6, PL/SQL Developer, Toad
Role Tester
Responsibilities Created test cases, test scripts and test data
 Executed test cases

Project "Design ATS Magazine (Mobile)"

Project Scope Design ATS Magazine
Duration Aug 2016 – Nov 2016
Database -
Role Graphic Designer
Responsibilities Create all graphic from Photoshop
 Create user flow

Project "Re-Design ATS – E- Leave Mobile (LMS)"

Project Scope Re-Design ATS – E- Leave Mobile (LMS)
 User Interface Screen Mode – Supervisor
 User Interface Screen Mode – Member
Duration Jul 2016 – Jul 2016
Database -
Role Graphic Designer
Responsibilities Create all graphic from Photoshop
 Create user flow

Project "Re-Design www.centrepont.com"

Project Scope Re-Design www.centrepont.com
Duration Jul 2016 – Jul 2016
Database -
Role Graphic Designer
Responsibilities Create all graphic from Photoshop

Project "LH Fund - Provident Fund"

Project Scope This project is to develop the program follow by customer's requirement.
Duration Jun 2016 – Jul 2016
Database -
Role Graphic Designer, BA
Responsibilities Create all graphic from Photoshop
 Developed HTML and CSS
 Update SRS Document

Project "AIS - CCSM"

Project Scope This project is to develop the program follow by customer's requirement.
Duration Nov 2015 – Jun 2016
Database -
Role Graphic Designer, Front-End
Responsibilities Create all graphic from Photoshop
 Developed HTML and CSS

Project "AIS - OSM"

Project Scope Outsource & Vendor Management System is developed for support following main functions as maintain of Master Data, outsource management, authorize management, Organize management.

Duration Aug 2014 - Nov 2015

Database Oracle

Role BA

Responsibilities Created UML Flow
Created Specification Document

Project "Betagro -PR Online"

Project Scope Create user manual online responsive

Duration Jul 2014 – Aug 2014

Database Microsoft SQL Server 2012

Role Software Engineer

Responsibilities Create all graphic from Photoshop
Developed HTML and CSS

Project "Anti-Money Launder Project"

Project Scope Create Mockup all website (Responsive) Create graphic support web application.

Duration Jul 2014 – Jul 2014

Database Microsoft SQL Server 2012

Role Software Engineer

Responsibilities Create all graphic from Photoshop

Project "iTracking (mobile app hybrid)"

Project Scope Create Mockup all graphic support application and developed Front end at True Vision Group

Duration Mar 2014 – Jun 2014

Database Microsoft SQL Server 2012

Role Software Engineer

Responsibilities Developed HTML and CSS
Create all graphic from Photoshop

Project "PO - Monitoring"

Project Scope PO-Monitoring System is developed for support following main functions as maintain Master Data, manage of delivery plan, generate Stock Report, generate Injection. Production Report and manage production plan to show on the monitor screen.

Duration Aug 2013 – Jan 2014

Database Microsoft SQL Server 2012

Role Software Engineer

Responsibilities Created Logo for Web Application
Created Unit test Document
Created Specification Document
Supported Document SA

Project "Lego"

Project Scope Create Mockup all website (Responsive), all graphic support web application and Developed Front end at DKSH (Thailand) Limited.

Duration Jun 2013 – Jul 2013

Database Microsoft SQL Server 2012
Role Software Engineer
Responsibilities Developed HTML and CSS
 Create all graphic from Photoshop

Project "Member Self Service"

Project Scope Member Self Service System is developed for support following main functions as maintain Master Data, manage of delivery plan. At Thai Administration Service Co., Ltd. (TAS)
Duration Mar 2013 – Jun 2013
Database Microsoft SQL Server 2012
Role Software Engineer
Responsibilities Developed HTML and CSS

Project "DTAC - Hamony"

Project Scope This project is for support DTAC customer via mobile.
Duration Jan 2013 – Feb 2013
Database Microsoft SQL Server 2012
Role Tester
Responsibilities Executed test cases

Tester Engineer — White Sparkles Thai Co., Ltd

Jan 2012 — Dec 2012

Created test cases, test scripts and test data. Executed test cases.

Created user manual.

Project "Website Product of Company"

Project Scope To modify the application for easy to use (user friendly) and reduce the working steps in creating the Purchase Request, Quotation and Invoice. Moreover, this application also supports Master Data creation (User data, Supplier data, Supplier product code data, Master Item data, Unit data, Letter of Guarantee data, etc.)
Duration Jan 2012 – Dec 2012
Database Microsoft SQL Server 2012
Role Tester
Responsibilities Created test cases, test scripts and test data
 Executed test cases
 Created user manual

Tester, Web Master — Seniorsoft Development Co., Ltd

Nov 2010 — Dec 2011

Created test cases and test scripts. Created the standard user manual document. Design and maintenance Website of Company.

Project "Testing all product of Company"

Project Scope Testing all product of Company
Duration Nov 2010 - Dec 2011
Database Sysbase
Role Tester

Responsibilities Created test cases and test scripts
Created the standard user manual documents
Tested for all module of Seniorsoft product application to
find the defect before modify all system
Supported customers

Project "Design New Web Site Company"

Project Scope Design New Web Site Company
Duration Nov 2010 - Dec 2011
Database Microsoft SQL Server 2010
Role Web Master
Responsibilities Developed HTML and CSS
Create all graphic from Photoshop
